--	----	-----	---------	-----------	--	-----	--

Provides desired turf color for up to 8 weeks by improving nitrogen efficiency

MUTEch™ slow release nitrogen is Anderson's methylene urea based controlled release technology that delivers predictable nitrogen release over time for optimum growth.

ACCUPRO 2000

High quality rotary spreader
Patented helical cone-adjust spread pattern for better accuracy
Pneumatic tires
Heavy duty enamel finished frame for long life
Hopper cover included

SR 2000

High quality stainless steel frame rotary spreader
Patented helical cone-adjust spread pattern for better accuracy
Heavy duty stainless steel frame for long life
Pneumatic tires
Right side deflector shield and hopper cover included
